Zide, 2006 Featuring over 400 full-color surgical photographs and drawings, this text/atlas is a step-by-step guide to the surgical approaches used to expose the facial skeleton. The Trouble with Higher Education Trevor Hussey, Patrick Smith, 2012-04-04 *The Trouble with Higher Education* is a powerful and topical critique of the Higher Education system in the UK, with relevance to countries with similar systems. Based on the authors' experiences that span over 30+ years of fieldwork, the issues discussed focus on the problems facing the principle responsibilities of universities: teaching, learning and research. The first half of the book identifies a number of problems that have followed the growth of mass education. It examines their causes and explains their damaging effects. The

second half of the book offers a broad vision and makes a number of practical suggestions for ameliorating the problems and improving higher education. Supported by research, the suggestions include: ways of managing universities; proper inspection; better ways of organising students' learning; improving teaching and learning; better approaches to assessment, and the proper use of ideas such as learning outcomes. Topics discussed include: Chronic under-funding, the replacement of student grants with loans and the introduction of tuition fees. The growth of managerialism. The emphasis on accountability and decline of trust. The growth of a competitive, market ethos. Modular degrees, knowledge treated as a commodity and students seen as customers. The drift towards a two-tiered system, with teaching colleges and research universities. Casualisation of the academic profession. The Trouble with Higher Education is aimed primarily at a professional audience of academics, educationalists, managers, administrators and policy makers, but would interest anyone concerned about higher education. It is suited to professional development courses, and Master's and doctoral level studies.

Regenerative Medicine and Plastic Surgery Dominik Duscher, Melvin A. Shiffman, 2019-11-26 This book discusses the current research concepts and the emerging technologies in the field of stem cells and tissue engineering. It is the first authoritative reference documenting all the ways that plastic surgical practice and regenerative medicine science overlap or provide a road map for the future of both specialties. The Editors have provided a valuable service by gathering in one place the leading voices in these two fields in clear and concise manner. Divided into five parts, the book opens with a description of the elements of regenerative medicine including definitions, basic principles of soft and bone tissue regeneration, biomaterials and scaffolds. Current research concepts are explored in the second part of this book, for example mechanotransduction and the utility of extracellular vesicles. In the third part, the editors present the emerging technologies and highlight the novel perspectives on bionic reconstruction and biomimetics in surgery and regenerative medicine. Part four deals with translational aspects including practical information on moving scientific findings from bench to bedside. The final part then describes in detail applications in clinical plastic surgery. Written by leading experts this book is an invaluable resource for researchers, students, beginners and experienced clinicians in a range of specialties. In your hands is a comprehensive encyclopedia of two rapidly converging fields. Drs Duscher and Shiffman have done an outstanding job of highlighting the interdependent relationship between plastic surgery and regenerative medicine. Ultimately, this is to the benefit of both fields. - Geoffrey C. Gurtner, MD, FACS Johnson and Johnson Distinguished Professor of Surgery Professor (by courtesy) of Bioengineering and Materials Science Inaugural Vice Chairman of Surgery for Innovation Stanford University School of Medicine

The SAC Classification in Implant Dentistry Anthony Dawson, William C. Martin, Waldemar D. Polido, 2022-03-30 In 2009, the book SAC Classification in Implant Dentistry was published, and the SAC Classification scheme has received widespread acceptance in the dental profession. The SAC Classification provides an evidence-based, objective framework for the

assessment of the potential difficulty, complexity, and risk of an implant-related treatment for a given clinical situation and serves as a guide for clinicians in both patient selection and treatment planning. From the book's initial release, clinical techniques, materials, and technology have continued to evolve and, in early 2017, the ITI recognized that there was a need to review the SAC Classification. The fully revised second edition of the SAC Classification in Implant Dentistry has been updated to ensure consistency with contemporary implant practice. Illustrated by new clinical case reports, this edition gives an even more detailed and comprehensive overview of the risks in implant dentistry and the practical application of the SAC Classification.

BÍ MẬT NGƯỜI THÁNH NGUYỄN VĂN BÌNH, 2022-11-19 GIỚI THIỆU “Các người sẽ biết lẽ thật, và lẽ thật sẽ buông tha các người.” Giăng 8:32 Trong Giăng 8:32 Chúa Jesus bày tỏ rằng chỉ một mình lẽ thật thôi thì không thể giúp chúng ta được tự do (buông tha). Hay nói cách khác là chúng ta phải hiểu thì chúng ta mới có thể áp dụng quyền mình có. Nhưng lẽ thật mà chúng ta biết sẽ giúp chúng ta được tự do (buông tha). Thật thú vị, cũng từ ‘biết’ trong ngôn ngữ Hy Lạp ở câu Kinh Thánh Giăng 8:32 được dịch là hiểu biết ở câu thứ mười một sau đó là Giăng 8:43. Nói cách khác, Giăng 8:32 có thể được dịch là: Các người sẽ hiểu biết lẽ thật, và lẽ thật (mà các người hiểu biết) sẽ buông tha các người.” Người thánh là người được làm con cái Đức Chúa Trời (Giăng 1:12). Chúng ta có quyền gọi Ngài là Abba (Mác 14:36). Người mà Đức Chúa Trời trả giá bằng Con Một của Ngài là Chúa Jesus để cứu chuộc chúng ta (Giăng 3:16). Là người được gọi là vua và là thầy tế lễ nhà vua (Khải huyền 1:6). Người mà Kinh Thánh gọi là một tạo vật mới trong Đấng Christ (2 Cô-rinh-tô 5:17). Người mà Phao-lô gọi là thánh đồ (1 Cô-rinh-tô 1:2). Người mà được ở trong Đấng Christ và Đấng Christ ở trong mình (Ga-la-ti 2;20). Người là bạn có thể cầu nguyện chữa lành và đuổi quỷ trên cơ thể bụi đất của người khác (Ma-thi-ơ 10:7-8). Người mà được dự phần bản tánh tự nhiên với Đức Chúa Trời. Người mà có hình ảnh và ảnh tượng giống Đức Chúa Trời (Sáng 1:26-27). Người được kết hiệp là một với Đức Chúa Trời (1 Cô-rinh-tô 6;17). Là người được đồng sống lại và đồng ngai trong các nơi trên trời trong Đức Chúa Jesus Christ (Ê-phê-sô 2:6). Ai sanh bởi Đức Chúa Trời, thì chẳng phạm tội, vì hột giống của Đức Chúa Trời ở trong người, và người không thể phạm tội được, vì đã sanh bởi Đức Chúa Trời. 1 Giăng 3:9 . . . Còn rất nhiều câu Kinh Thánh nói lên chúng ta là người THÁNH vì đây chính là điều mà Đức Chúa Cha đã sai Con một của Ngài để khôi phục con dân Ngài quay trở lại với Thiên Đàng trên đất này theo ý định ban đầu của Ngài. Trong Sáng Thế Ký 1:26-27 Đức Chúa Trời phán rằng: “Chúng ta hãy làm nên loài người như hình ta và theo tượng ta, đặng quản trị loài cá biển, loài chim trời, loài súc vật, loài côn trùng bò trên mặt đất, và khắp cả đất. Đức Chúa Trời dựng nên loài người như hình Ngài; Ngài dựng nên loài người giống như hình Đức Chúa Trời; Ngài dựng nên người nam cùng người nữ.” Vậy là người thánh có được trái của Thánh Linh “Ấy là lòng yêu thương, sự vui mừng, bình an, nhin nhục, nhân từ, hiền lành, trung tín, mềm mại, tiết độ.” Ga-la-ti 5:22. Với tất cả những điều trên, con người thánh của bạn có được chỉ bởi đức tin “Vì chúng ta bước đi bởi đức tin, chớ chẳng phải bởi mắt thấy.” 2 Cô-rinh-tô 5:7. Anthony A. Hoekema cũng lập luận rất rõ quan điểm này: “Điều quan trọng nhất là chúng ta phải nhận thấy rằng nên thánh không phải là việc chúng ta tự làm, bằng nỗ lực của chính mình và bằng sức lực của mình. Sự nên thánh không phải là một hoạt động của con người mà là một món quà thiêng liêng. Do đó, theo Kinh thánh, mặc dù sự nên thánh chủ yếu là công việc của Đức Chúa Trời trong chúng ta, nhưng đó không phải là một quá trình chúng ta thụ động mà là một quá trình mà chúng ta phải liên tục hoạt động.”[1] “Người thánh là gì? Ai là người thánh? Làm thế nào để nên thánh?”

Regenerative Medicine and Plastic Surgery Dominik Duscher, Melvin A. Shiffman, 2019-11-27 This book presents the latest advances in the field of regenerative medicine in plastic surgery. It is the first authoritative reference documenting all the ways that plastic surgical practice and regenerative medicine science overlap or provide a road map for the future of both specialties. The Editors have provided a valuable service by gathering in one place the leading voices in these two fields in clear and concise manner. The first part introduces readers to essential principles of skin and soft tissue regeneration, e.g. the possibility of using mesenchymal stem cells for wound healing. Since bone serves as a supportive tissue in most of the body, bone regeneration is an important aspect of regenerative medicine; accordingly, the second part discusses the novel bone implants, activated bone grafts and bone tissue engineering. The book's third part, focusing on cartilage regeneration, includes chapters on e.g. stem cells and ear regeneration. In turn, part four addresses muscle and tendon regeneration: from tendon to bone and tendon to muscle, as well as aging in the realm of muscle regeneration. Lastly, part five highlights nerve regeneration, deepening surgeons' knowledge to help them successfully treat injuries to the peripheral neural system. Written by leading experts this book is an invaluable resource for researchers, students, beginners and experienced clinicians in a range of specialties. With beautiful clinical images and artwork, this book will be a central companion to both practicing plastic surgeons who wish to remain abreast of oncoming technologic advances and regenerative medicine researchers who wish to understand the current state of the art of surgical reconstruction. - Geoffrey C. Gurtner, MD, FACS Johnson and Johnson Distinguished Professor of Surgery Professor (by courtesy) of Bioengineering and Materials Science Inaugural Vice Chairman of Surgery for Innovation Stanford University School of Medicine

Saturnin Zdeněk Jirotka, 2022-05-01 Có thể nói, Saturnin là một trong những tác phẩm mô tả được rõ ràng nhất lối suy nghĩ của người Séc và văn hóa của họ. Không giật gân hay mạo hiểm như những tiểu thuyết của Mỹ, không lãng mạn như các truyện của Pháp, sự vụ nguy hiểm và hồi hộp nhất trong Saturning là mất cá chân bị bong gân và điều lãng mạn nhất là một nụ hôn. Có lẽ, chính vì vậy mà các độc giả có thể hiểu được tính cách của người Séc. Đi hái nấm trong một ngày hè ẩm áp, hay là đi dạo trong rừng và qua đêm ở ngoài trời, người ta bình tĩnh, thanh thản trò chuyện vui vẻ, kể cả khi mùa mai, bởi "Tất cả mọi điều đều có thể diễn giải bằng cách nói ôn hòa của xã hội lành mạnh". Mặc dù văn hóa Việt và Séc có nhiều điểm khác biệt, người Việt ưa ăn phở và nem rán, còn người Séc ưng bánh mì hấp và bánh nướng nhân mứt, nhưng cả hai đều thấu cảm các vấn đề của tình yêu, không quan trọng đó là tình yêu giữa Xuân Tóc Đỏ với Tuyết, là hay giữa ông chủ của Saturnin với tiểu thư Barbora. Saturnin như là một cánh cửa dẫn vào tâm hồn Séc, xin mời các độc giả Việt ghé bước.
